

OhioHealth Welcomes New Foot and Ankle Specialist

Dr. Thomas has extensive training and knowledge in all aspects of foot and ankle care. He offers complete care for any foot and ankle ailments from conservative care to the latest advancements in foot and ankle surgery in Columbus, OH.

Columbus, Ohio—[Dr. Randall Thomas](#) has joined the team at Clintonville/Dublin Foot and Ankle Group, Inc. in their two office locations in Clintonville and Dublin. He is accepting new patients of all ages and is available for same day appointments. Dr. Thomas has extensive training and knowledge in all aspects of podiatry care, foot and ankle surgery and treatment.

“I welcome the opportunity to work for a practice which has been built on integrity, patient centered care, and surgical excellence. I offer complete care of any and all foot and ankle ailments from conservative care to the latest advancements in foot and ankle surgery” said Dr. Thomas. “I look forward to helping the community and guiding patients through the healing process.”

Dr. Thomas received his undergraduate degree from the University of New England, and then went on to receive his medical degree from the Barry University School of Podiatric Medicine and Health Sciences in Miami, Florida. Dr. Thomas completed his Residency training at Grant Medical Center in Columbus, Ohio where he performed more than 2,000 foot and ankle surgical procedures. He sees patients of all ages with any ailment involving the foot, ankle, or lower leg. Dr. Thomas works with his patients to identify their foot and ankle problems and obtain a good outcome with compassionate and ethical care.

“My goal is patient centered care with effective communication throughout the healing process and a quick resolution of their ailments” said Dr. Thomas. “I create a custom treatment plan tailored to each patient and only perform surgery on patients when it’s necessary.”

Clintonville/Dublin Foot and Ankle Group, Inc. offers convenient in-office x-ray, ultrasound and minor surgical procedures, complete and prompt care coordination and communication with patient’s personal physician, and online appointment request.
