TriHealth has been named to the Becker's Hospital Review list of "150 Great Places to Work in Healthcare." TriHealth is the only local health care organization on the list and one of just nine hospital systems or health care organizations in the state to be recognized (joining Adena Health System, Cardinal Health, Cleveland Clinic, Ohio Health, ProMedica, Southern Ohio Medical Center, University Hospitals of Cleveland and Updax).

The organizations featured on the list were selected by the Becker's Hospital Review editorial team, based on workforce-centric awards received; benefits offerings; wellness initiatives; and efforts to improve professional development, diversity and inclusion, work-life balance and a sense of community and unity among employees.

TriHealth was recognized by Becker's Hospital Review, in part, for several of its recent workplace accolades, including:

Making AARP's national "Best Employers for Workers Over 50" list
Making Working Mother magazine's "100 Best Companies" list 11 years in a row
Ranking No. 1 on the National Association for Female Executives' list of "Top 10 Nonprofit Companies for Executive Women"

In addition, TriHealth's Lifestyles Department was recognized for providing free personal coaching, health and wellness programs and other healthy living resources to improve the health and productivity of TriHealth employees and their families.

"We are honored to be listed among such prestigious hospitals and health systems recognized nationally for being a great place to work," said John Prout, TriHealth president and CEO. "We are committed to offering an employee experience to match the excellence and leadership of our fine staff."
